COLCHESTER TRAMWAYS

THE UNTOLD STORY 1904-1929 Peter Jones

The first years of the 20th Century were a golden age for trams, providing transport to and from the suburbs. Many historic scenes are included herein, helping to keep the memories of Colchester Corporation Tramways alive. The oral history group, 'Colchester Recalled', has been particularly useful in providing eyewitness accounts from people who travelled and worked on the trams.

BUXTON TO STOCKPORT

INCLUDING CHINLEY AND PEAK FOREST Paul Shannon

The Peak District in beautiful Derbyshire was a source of much rail revenue from tourism. Another important income came from underground, in the form of limestone. The variety of trains used for these traffics are extensively illustrated, not to mention the suburban activity

NEW Published 31 August

SCUNTHORPE TO DONCASTER

INCLUDING THE ISLE OF AXHOLME JOINT RAILWAY PLUS WITTON & ELSHAM Vic Mitchell and Keith Smith

The route runs over much level farmland, but unusually traverses a north-south outcrop of ironstone. The resulting varied traffic is shown, including rail activity at one of the few remaining steelworks in Britain.
